Bachelor in Computer Science (GPA: 3.19 / 4.00)

Benha University

📅 Sep 2022 – present   📍 benha, Egypt

PROJECTS

My portfolio

source   live

- This is my first portfolio
- I was hit by some hurdles like how i will make the navbar make change when i change from section to another dynamically.
- also this is my first project with framer motion
- in contact section we can send me message with emailJs.
- ReactJS   tailwind   FramerMotion

Burger-commerce

source

- this is one of my big projects Burger-commerce project i showed the most of what i learned
- i build my backend by strapi this is nodeJs openSource.
- i used axios to fetch apis .
- ReactJs   Srtapi   react-query   react-router-dom   swiper   axios

Blood-Sample

source   live

- in this project i try to show all my abilities in ReactJS.
- Users can donate blood, search nearest donor and have a health Check.
- he can also search for events for blood donation .
- we also added section for blood banks.
- Node.js   MongoDB   Express   REST API   ReactJS   axios   framerMotion   tailwind   react-router-dom   react-query
